

Mississippi State University
Notice of Proposed Sole Source Purchase

267-010

Mississippi State University anticipates purchasing the item(s) listed below as a sole source purchase. Anyone objecting to this purchase shall follow the procedures outlined below.

1. Commodity or commodities to be purchased (make, model, description):
Trackman IO
2. Explanation of the need to be fulfilled by this item(s), how is it unique from all other options, and why it is the only one that can meet the specific needs of the department:
Trackman provides a combination of technologies and capabilities that are not available from other launch monitor manufacturers within a single integrated platform. These proprietary capabilities make Trackman uniquely qualified to meet the technical and operational requirements of golf instruction, club fitting, player development, practice facilities, and simulator environments. Specifically, Trackman IO uniquely combines high-speed optical imaging with Doplar radar to precisely measure both club and ball data in permanent indoor installations.
3. Name of company/individual selling the item and why that source is the only possible source that can provide the required item(s): Trackman Golf. Trackmen have unique radar detection system that others don't have and are considered the best technology when it comes to golf swing, ball, and tracking. This system is designed to work indoors with no setup which others don't have.
4. Estimated cost of item(s) and an explanation why the amount to be expended is considered reasonable: The total spend is \$22086.00 which is being sold to us at a 20% discount. The item will be paid for by the MSU Golf Course.

5. Explanation of the efforts made by the department to determine this is the only source and the efforts used to obtain the best possible price: Through our relationships with Regional Sales Reps and their relationship to Mississippi State University they see the value of the Trackman platform at our facility. We have had a relationship with Trackman previously and are witness to their product that is considered the best in the club and ball data space on a single platform. Specifically, the introduction of Trackman IO to PGM students and the future golf professionals the PGA Golf Management Program produces annually.

Any person or entity that objects and proposes that the commodity listed is not sole source and can be provided by another person or entity shall submit a written notice to:

Jennifer Mayfield, CPPO

Director of Procurement Services, Chief Procurement Officer

jmayfield@procurement.msstate.edu

Subject Line must read "Sole Source Objection"

The notice shall contain a detailed explanation of why the commodity is not a sole source procurement. Appropriate documentation shall also be submitted if applicable.

If after a review of the submitted notice and documents, MSU determines that the commodity in the proposed sole source request can be provided by another person or entity, then MSU will withdraw the sole source request publication from the procurement portal website and submit the procurement of the commodity to an advertised competitive bid or selection process.

If MSU determines after review that there is only one (1) source for the required commodity, then MSU will appeal to the Public Procurement Review Board. MSU will have the burden of proving that the commodity is only provided by one (1) source.
