Title: _____

Item	Quantity	Description	Unit Price	Total Price
1		eValue Subscription Fee Flat Fee		
2		Optimizational Scheduling (EVOS)		

The standards for accreditation as a professional college of veterinary medicine involve the reporting of student competencies, student portfolios, clinical skills, curriculum mapping, and overall school performance and record keeping. The Mississippi State University College of Veterinary Medicine seeks a web-based system that will enable the MSU-CVM to maximize staff time, money, and effort by streamlining and tracking requirements for student progress, student and faculty evaluation, student scheduling, curriculum mapping, compliance, and reporting of said tracking, evaluation, scheduling, mapping, and compliance for accreditation purposes. The streamlining of this information is critical to not only assess the overall effectiveness of the program but to also document our progress for accreditation purposes as a school of veterinary medicine. This includes monitoring and tracking for internal program maintenance and assessment as well. The application should provide for real-time tracking of students as they progress through the curriculum and the completion of accreditation-based

requirements. The goal is to implement a tool used by the MSU-CVM that better organizes, streamlines, and coordinates student outcomes and curriculum

development throughout all four years of the MSU-CVM Doctor of Veterinary Medicine program.

MSU is seeking a three-year (3) contract. Please either provide firm pricing for the annual renewal or explain how annual price will be determined.
